

COME Racing...

**Holden "Forged piston" Stroker Kits.**

**Holden Stroker cast & Billet 4340 steel cranks.**

**Highest quality, lower prices! (includes GST)**

**355ci Holden V8 Stroker kit FORGED PISTONS.....\$2750.00**

**383ci Holden V8 Stroker kit FORGED PISTONS.....\$3000.00**

**396ci Holden V8 Stroker kit FORGED PISTONS.....\$3300.00**

**\* "H" beam rods add...\$500.00**

**\* All kits fully balanced \* All feature Probe, Wiseco or Diamond Racing forged pistons \* Moly rings, rod and main bearings \* All kit components capable of over 550 bhp \* Most accurately machined cranks and rods in the industry \* Proven performance and reliability for over 17 years manufacturing Holden Stroker cranks \* Any neutral flywheels and balancers bolt on.**

**355ci Nodular cast crank, Holden rod journals...\$770.00**

**355ci Nodular cast crank, Chev rod journals.....\$770.00**

**383ci Nodular cast crank, Chev rod journals.....\$880.00**

**396ci Nodular cast crank, Chev rod journals....\$1500.00**

**355ci and 383ci 4340 steel billet cranks ...\$2500.00**

Note: All the above COME cranks have in house designed counterweights to enable easy internal balancing. Production or aftermarket neutral balancers and flywheels designed for 304/308 Holden V8's can be bolted right on.

**355ci Holden V8 Stroker kit, billet steel crank, "H" beam rods, forged pistons. Available in normally aspirated or boost style low compression pistons.....\$4700.00**

**383ci Holden V8 Stroker kit, billet steel crank, "H" beam rods, forged pistons. Available in normally aspirated or boost style low compression pistons.....\$4900.00**

**All kits fully balanced \* All feature Diamond Racing or Wiseco forged pistons \* All kit components capable of over 700+ bhp \* Most accurately machined cranks and rods in the industry \* Proven performance and reliability for over 17 years manufacturing Holden Stroker cranks \* Any neutral flywheels and balancers bolt on.**

If you are building a race, extreme use or endurance Holden V8 for normally aspirated or boost applications, you will not find a stronger more reliable stroker kit anywhere at any price.
